

PRESS RELEASE

2025 Turbo Rules for LPS, 540 LP, LLP Classes

01/13/2025 - For the 2025 Outlaw Truck and Tractor Pulling Association season the following rules will apply for the turbochargers in the following classes:

Affected Classes:

- Limited Pro Stock Tractor
- 540 Light Pro Stock Tractor
- Light Limited Pro Stock Tractor

New Turbo Checking Procedure:

- 2-point plug with one inch opening and a 30-degree face will verify compliance.
- Plug must fit the bore and avoid contact with compressor blades.

NOTE: Measurement devices to make sure turbo is legal can be purchased by contacting the OTTPA Competition Director.

2025 Limited Pro Stock Turbocharger - Rule #26.4:

1. Allow any 4.1 smooth bore turbo with maximum 4.5 exhaust wheel.
2. Intake and exhaust wheel must protrude 1/8-inch into the housing.
3. No map width enhancement (MWE) is allowed.
4. Exhaust must exit through max 4.5" bore in housing.
5. Intake must be smooth with no slots or grooves to allow extra air.
6. Compressor wheel must enter bore by 1.8" with a minimum diameter of 4.0 inches.
7. Refer to rule 20.6.3 "Tractor General: Turbochargers" for inspection process.

2025 540 Light Pro Stock Turbocharger – Rule #27.4:

1. Any turbo allowed, with 4.5" max exhaust wheel
2. Exhaust Wheel must protrude 1/8" into housing
3. All exhaust to exit through max 4.5" bore in housing.
4. Maximum 5-inch intake housing.
5. Refer to rule 20.6.3 "Tractor General: Turbochargers" for inspection process

2025 Light Limited Pro Stock Turbocharger – Rule #24.5

1. Any 3x4 smooth bore turbo
2. No map width enhancement (MWE) allowed
3. Intake and exhaust wheel must protrude into housing 1/8"
4. Refer to rule 20.6.3 "Tractor General: Turbochargers" for inspection process
